ENERGY

Every morning when I brush my teeth

I turn off the tap quickly

So the clean wather doesn't flow

Into the sewage.

Having a bath is a delight for all

but make sure you bathe in the tub,

not dive in it.You can drawn in

your bills.

Save electricity and save your money, too

by turning off the light, when it's not

needed.

When the night sneaks into your room,

Your friend becomes electric light.

That's why I'll save the electricity

So I can have it for a long time

and still leave some for the future.
